Why only Chembur?

Chembur has witnessed a paradigm shift over the past few years. Primarily known as an industrial destination with the presence of reputed companies such as RCF and BARC, Chembur has now transformed into a premium residential destination of the central suburbs having a quintessential combination of old bungalows, modern high rises, premium clubs and open spaces.

The property prices in Chembur, have appreciated by around **48% from 2010 to 2020**. The booming commercial and retail developments along with unrelenting demand from both investors and buyers contributed to the substantial increase in the average prices. Strategically located and having seamless connectivity to all locations - Central Suburbs, South and North of Mumbai, BKC and Navi Mumbai Mumbai; Chembur is rightly considered as **'The Epicentre of Mumbai'** and enjoys an edge over a few other localities.

Limited launches and low availabilities have resulted in continuous appreciation in prices.

It is anticipated that prices are likely to continue the rising trend in the future.
